Sukano is committed to building an outstanding, inclusive work environment and diverse teams which are representative of employees. The Sukano Group is an Equal Opportunity Employer and takes pride in maintaining a diverse work environment. All qualified applicants receive consideration for employment without regard to race, color, religion, sex, national origin, age, protected veteran status, status as a qualified individual with a disability, or any other characteristic protected by law.

At Sukano, we believe that a brighter future is built on diversity. We're proud to offer equal employment opportunities and to be an affirmative action employer. That means that we consider applications based on how well suited candidates are for the role.

We fundamentally reimagine the way we work and create a culture that brings out the best in our people to fulfill our purpose of being an organization that has a positive social impact, building strategies to advance not only our business, but also the common good. Our goal is to be a force to change the world for the better. Sukano chooses to operate with integrity, strengthening society and striving to be part of a larger mission worldwide. We believe we can drive innovation, performance and reputation – and enhance our people's work experience – by transforming our culture to excel in entrepreneurship, responsiveness, agility and expertise. Our purpose addresses the desire many people have for self satisfaction and fulfillment in their work, empowering them to be their best every day. Curious minds with a constant desire to specialize further fuel the development of innovative products and breakthrough applications that enable and facilitate a circular economy. We want to build a diverse and inclusive workplace where every one of us can be our best and true selves, so that together we can create a positive impact for the communities and markets we serve.
